Art Unit: 1771

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 53-56, drawn to a method of making a sorbent wadded mass, classified in class 19, subclass 144
- II. Claims 57-71, drawn to a method of using a sorbent mass for a liquid hydrocarbon, classified in class 210, subclass various.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions because Group I is drawn to a method of making a fiber batt while Group II is drawn to a method of absorbing a hydrocarbon.
